AUSTRALIAN BUREAU
OF STATISTICS

#### **AUSTRALIA**

Australia, which includes the island continent and the island of Tasmania, is situated in the Southern Hemisphere, and comprises an area of 7,678,700 square kilometres, almost as large as the United States of America excluding Alaska.

Bounded on the west and east by the Indian and Pacific Oceans respectively, it lies between longitudes 113° 9′ and 153° 39′ E., while its notthern and southern limits are the parallels of latitude 10° 41′ S, and 43° 39′ S.

On its north are the Timor and Arafura Seas and Torres Strait, on its south the Southern Ocean. The extreme points are Steep Point on the west, Cape Byron on the east, Cape York on the north, and South East Cape on the south.

The difference in latitude between its extreme north and south points is about 3,700 kilometres and in longitude between its extreme east and west points about 4,000 kilometres.

See page 1, for years of formation of the Colonies and the areas of the States and Territories, standard times, etc., and page 221 for major historical events.

# POCKET COMPENDIUM OF AUSTRALIAN STATISTICS

No. 60, 1975

Prepared under instructions from the Honourable the Special Minister of State by J. P. O'NEILL

COMMONWEALTH STATISTICIAN

Ref. No. 1.2

### SYMBOLS AND OTHER FORMS OF USAGE

The following symbols, where shown in columns of figures, mean:

- n.a. Not available.
  - .. Nil or less than half the final digit shown, or not applicable.
  - p Preliminary-figure or series subject to revision.
  - r Figure or series revised since previous issue.
- n.e.i. Not elsewhere included.
- n.e.s. Not elsewhere stated.
  - Break in continuity of series (where drawn across a column between two consecutive figures).

A blank space in a column of figures means that the figure concerned is not yet available.

Yearly periods shown as, e.g., 1973, refer to the year ended 31 December 1973; those shown as, e.g., 1973-74, refer to the year ended 30 June 1974. Other yearly periods are specifically indicated.

Unless otherwise indicated, the Metric system of weights and measures is used.

Values are shown in Australian dollars (\$) or cents (c) unless another currency is specifically stated.

Any discrepancies between totals and sums of components in tables are due to rounding.

#### AREA, COASTLINE, AND STANDARD TIMES

Note. The areas of the States and Territories and the length of the coastline were recently determined, by the Division of National Mapping by manually digitising these features from the 1:250,000 map series of Australia. This means that only features of measurable size at this scale were considered. About 60,000 points were digitised at an approximate spacing of 0.5 km. These points were joined by chords as the basis for calculation of areas and coastline lengths by computer.

The approximate high water mark coastline was digitised and included all bays, ports and estuaries which are open to the sea. In these cases, the shoreline was assumed to be where the seaward boundary of the title of ownership would be. Rivers were considered along similar lines but the decisions were rather more subjective, the digitised line being across the river where it appeared to take its true form. In mangroves, the shoreline was assumed to be on the landward side.

(a) Greenwich Mean Time is one hour ahead of British Mean Time. For standard times in other countries see page 3. (b) Because of 'daylight saving' an hour should be added from late October to early March. (c) Transferred to Commonwealth in 1911.

The six States with their included Territories were federated under the name 'Commonwealth of Australia' on I January 1901.

The coastline of Australia is approximately 36,800 kilometres long— New South Wales, 1,900 kilometres; Victoria, 1,800 kilometres; Queensland, 7,400 kilometres; South Australia, 3,700 kilometres; Western Australia, 12,500 kilometres; Northern Territory, 6,200 kilometres; Australian Capital Territory, Jervis Bay area included in New South Vales; Tasmania, 3,200 kilometres. These measurements are broadly on a direct basis, but even so they must be regarded as approximate only.

### AREAS OF TROPICAL AND TEMPERATE REGIONS: STATES AND TERRITORIES

#### (Square kilometres)

Of the total area of Australia, nearly 39 per cent lies within the tropics. Taking the latitude of the Tropic of Capricorn as 23° 30′ S., the areas within the tropical and temperate zones are approximately as follows:

Area	N.S.W.(a)	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	Total

N

### (a) Includes Australian Capital Territory (2,400 square kilometres)

Fifty-four per cent of Queensland lies within the tropical zone and 46 per cent in the temperate zone; 37 per cent of Western Australia is tropical and 63 per cent temperate; while 81 per cent of the Northern Territory is tropical and 19 per cent temperate. All the remaining States lie within the temperate zone.

AUSTRALIAN PARLIAMENTS

The Legislature of Australia and of each State except Queensland is bicameral, consisting of an Upper and a Lower House. In Queensland the Upper House was abolished in 1922. In the Commonwealth Parliament the Upper House is known as the Senate and the Lower as the House of Representatives; in the bicameral States the Upper House is known as the Legislative Council and the Lower House, in New South Wales, Victoria, and Western Australia, as the Legislative Assembly (which is also the name of the Queensland Parliament) and, in South Australia and Tasmania, as the House of Assembly.

The members of the Legislative Assembly or House of Assembly, as the case may be, of each State are elected by the people, the franchise extending to British subjects who are at least 18 years of age. With the exception of the New South Wales Legislative Council, the members of State Legislative Councils are, in common with members of the Lower Houses, elected by the people of the respective States. In New South Wales a quarter of the members of the Legislative Council retire each three years, and the continuing members of the Council and the members of the Legislative Assembly, voting as an electoral body, elect members to fill the vacant positions. In the Commonwealth Parliament the qualifications for the franchise are identical for both Houses, extending to British subjects who have lived in Australia for six months continuously and who are at least 18 years of age.

<sup>(</sup>a) Majority of electors in a majority of States and a majority of all electors in favour of proposal. Requisite majorities not obtained at other referendums.

Note. All referendum proposals except Military service in 1916 and 1917 involved alteration of the Constitution. Prior to Federation there were two referendums, the first in 1898, when a proposed Constitution, embodied in the Federal Constitution Bill, was submitted to the popular vote but failed to receive the statutory votes. Following modification of the Bill the necessary consent was obtained at a referendum held in 1899.

Note. Gross domestic product—the market value of final goods and services produced in Australia—is shown in terms of incomes and other costs appropriated out of it. Operating surplus is shown gross of the depreciation costs which businesses would deduct in arriving at income available for distribution. Indirect taxes are costs which enter into the value of the product measured at market prices and represent income appropriated by government.

#### WORLD SHIPPING TONNAGE

At 1 July 1973 the total number of steamships and motorships 100 gross tons and upwards throughout the world was 59,606 with a gross tonnage of 289,926,686. Of those totals, steamships numbered 6,482 for 103,569,993 gross tons, and motorships 53,124 for 186,356,693. This includes 6,607 oil tankers of 100 gross tons and upwards with a gross tonnage of 115,365,200 Australian steamships and motorships, 373 for 1,160,205 gross tons constituted 0.63 per cent and 0.40 per cent respectively of the total number and gross tonnage. This information has been derived from Lloyd's Register of Shipping.

#### PRIVATE RAILWAYS

Private railways are operated over a range of gauges and are to be found in each State. In recent years there has been considerable growth in the operations of private railways, from an estimated 483 route-kilometres in 1965 to approximately 1,741 by 1973. The construction of 937 kilometres of heavy duty railway for north-west Western Australia iron ore projects accounts for much of the increase.

Two private railway projects have recently been constructed. These are a railway for Cliffs Western Australian Mining Company Proprietary Limited in north-west Western Australia and a railway at Weipa in Queensland for the Comalco Company. The former is used for the carriage of iron ore, and links Mount Enid with Port Lambert (approximately 167 kilometres). The latter links Andoom with Weipa (approximately 21 kilometres) and is used for the carriage of bauxite.

#### (a) Excludes stock routes.

#### (b) See NOTE.

Note. 'Classified roads' refer to roads proclaimed or declared by Act for which the central road authority concerned assumed responsibility for part or the whole of the cost of construction and/or maintenance. Included under this heading are State highways, trunk roads and ordinary main roads, comprising about 74 per cent of the total classified mileage for Australia, and secondary, developmental, tourist, etc., roads, comprising about 26 per cent. These classifications do not apply to the two Australian territories.

'Total roads' are estimates of all roads and tracks normally open for general traffic, about 49 per cent of which are constructed, the remainder being formed or natural surface only. The sources for this information are, in the main, local government authorities.

(a) The estimates are from the quarterly population survey which is based on a two-thirds of one per cent sample of all dwellings in Australia in February, May, August and November each year. The estimates relate to all persons aged 15 years and over except members of the permanent armed forces and certain diplomatic personnel customarily excluded from census and estimated populations. (b) The labour force in each group as a percentage of the civilian population aged 15 years and over in the same group (labour force participation rate). (c) Never married, widowed and divorced.

NOTE. Discontinuity of the series between 1970 and 1971 has been caused by the exclusion from the labour force of trainee teachers, some of whom were classified as in the labour force for earlier periods. Discontinuity between 1972 and 1973 has been caused by a change in the basis of industry coding. For further details, see the latest issue of The Labour Force (Reference No. 6, 20).

<sup>(</sup>a) Expenditure for this year includes five 12-weekly payments instead of the usual four 12-weekly payments for endowments paid to the credit of bank accounts.

The weekly rates are: \$0.50 for the first child in a family, \$1.00 for the second child, \$2.00 for the third, and cumulative increases of 25c for the fourth and subsequent children under 16 years. The payment for each child under 16 years in an approved institution is \$2.00, Endowment is also paid for full-time student children aged between 16 and 21 years, at the rate of \$1.50 per week. Child endowment is not subject to a means test.

Claims for families which have both endowed children under 16 years, and endowed student children, 16 to 21 years are counted twice.

#### DOUBLE ORPHANS' PENSIONS

Introduced from 9 October 1973. A double-orphan's pension is payable to the guardian of a child both of whose parents, or adoptive parents, are deceased. It may also be payable if one parent, or adoptive parent, is deceased and the other's whereabouts is unknown or, if there was only one adoptive parent, that person is deceased.

A double orphan's pension is payable at the rate of \$10.00 a week for each eligible child and is not subject to a means test.

During 1973-74, the number of double orphan persons paid was 2,606 of which 2,288 were paid to orphans with guardians and 318 to orphans in institutions. The total amount paid was \$460,000.

<sup>(</sup>a) Includes pensions to dependants. Miscellaneous war and service pensions are not included in the pensions granted column prior to 1967-68 but are included in the remaining columns.

War pensions and allowances are paid to veterans and their dependants as compensation for incapacity or death accepted as due to war service. They fall into three main categories, depending on the severity of the war caused disability, as follows: special rate, intermediate rate and general rate. War pensions are not subject to a means test or to income tax.

Service pensions are payable to veterans:

(i) on reaching the age of 60 years for men and 55 years for women; (ii) permanently unemployable, or

(iii) suffering from pulmonary tuberculosis.

With the exception of (iii), male members must have served in a theatre of war and females must have served abroad. Service pensions have operated since 1 January 1936 and are subject to a means test if the pensioner is under the age of 75.

Wives of service pensioners are also eligible provided that they do not receive pensions from the Department of Social Security.

## INCOME TAX: AUSTRALIA I. INDIVIDUALS

1974-75 Income year

In the 1974-75 Budget, reductions were announced in personal income tax for the 1974-75 financial year, on taxable incomes up to nearly \$10,500 with slight increases above that figure. For taxpayers on low incomes with dependants a special rebate is to be introduced to bring the tax saving, resulting from the alliewance of the dependants deductions, up to 40 per cent of the amount of the deductions. A surcharge is to be imposed on property income received by individuals in 1974-75. The surcharge will be property income included in the taxable income and applies when the taxable income exceeds \$5,000. As announced earlier the age rebate introduced as a transitional measure in 1973-74 is to be reduced to \$130 for the 1974-75 financial year.

Income tax is levied if the income remaining after allowing deductions exceeds \$1,040.

<sup>(</sup>a) If a dependant (not a housekeeper) has a separate net income, is not wholly maintained, or is maintained for part only of the year the deduction is reduced.

#### Other deductions

The following other deductions from income are allowable (i) Rates and taxes on sole or principal place of residence up to \$300; (ii) gifts to public, charitable, etc, institutions; (iii) subscriptions to trade unions and trade business or professional associations. It is proposed that home loan interest payments be allowable as a deduction subject to certain income limits and based on combined income of husband and wife.

Payment of tax

- (i) Employees pay the tax as a deduction from wages. Deductions in 1974-75 will be used to pay tax on 1974-75 income. Any difference between the deductions and the tax assessed will be adjusted by cash payment. The scale of weekly deductions is available at all Post Offices.
- (ii) Non-employees in 1974-75 will pay a provisional tax on that year's income. the 1974-75 provisional tax will be adjusted in 1975-76 when the actual tax on 1974-75 income is known.

#### II. COMPANIES

As announced in the 1974-75 Budget Speech, the Government has proposed changes to the rates of tax for private companies.

<sup>2. (</sup>i) Medical, etc. expenses of a taxpayer and his dependants (including dental expenses, artificial limbs or eyes, hearing aids, etc., the remuneration of an attendant of a person who is blind, etc.); (ii) funeral expenses up to \$100 per dependant; (iii) life assurance premiums etc. up to \$1,200; (iv) payments to medical or hospital benefits funds; (v) legal expenses incurred in adopting a child. (vi) education expenses and self education expenses. In the 1974-75 Budget it was announced that the maximum deduction allowable for educational expenses would be \$150 per student.

#### MANUFACTURING INDUSTRIES: SUMMARY OF OPERATIONS, AUSTRALIA

Note. Commencing with the year ended June 1969, the annual census of manufacturing has been conducted on an integrated basis with the annual mining census, and the periodic retail and wholesale trade censuess. This has resulted in major changes in the census units, the scope of the census and the items of data. Consequently, figures for 1968-69 and subsequent years are not directly comparable with those for previous years. For full details see the publication Manufacturing Establishments and Electricity and Gas Establishments—Summary of Operations, Australia (Reference No. 12. 23).

Note. Gross value is the value placed on recorded production at the wholesale prices realised in the principal markets. In general the 'principal markets' are the metropolitan markets in each State. (In cases where primary products are consumed locally, or where they become raw material for a secondary industry, these points are presumed to be the principal markets.)
